KAI QIN

Ph.D. Candidate in Management Science
Department of Information Technology & Decision Sciences
G. Brint Ryan College of Business | University of North Texas | Denton, TX 76203
Kai.Qin@unt.edu | (940) 222-9191 | https://kaiqin9191.github.io/

EDUCATION

University of North Texas, G. Brint Ryan College of Business, Denton, TX

Ph.D. in Management Science — May 2027 (Expected)

Minor: Finance

Dissertation Title: Workforce Investment, Regulatory Oversight, and Workplace Safety: Evidence from Linked Federal Data

Committee Chair: Dr. Victor Prybutok, G. Brint Ryan Endowed Professor and Regents Professor of Decision Sciences

Committee Co-Chair: Dr. Ronnie Jia, G. Brint Ryan Associate Professor of Information Technology & Decision Sciences

Committee Members: Dr. Vipul Garg, Dr. Suman Niranjan, Dr. Aaron Bonnett

Proposal Defense: Dec 4th, 2026 (Expected)

Boston University, Boston, MA — **December 2022**

M.S. in Actuarial Science

Texas Christian University, Fort Worth, TX — **May 2020**

B.A. in Mathematics

AREAS OF INTEREST

RESEARCH INTERESTS

- Application areas: Operations, supply chain management, workforce analytics, organizational change, employee benefits and firm-level employment decisions, regulatory oversight and managerial attention, workplace safety, AI in organizations
- Research methodologies: Panel data econometrics, fixed-effects models, archival data linkage, survey design and multi-wave data collection, experimental design, regression analysis, multivariate analysis
- • Software and programming: Python (primary language for data linkage and analysis), R, SAS, SPSS, STATA, Excel/VBA

TEACHING INTERESTS

- Operations management, quality management, supply chain management
- Business analytics, management science, managerial decision-making, quantitative methods and business statistics, econometric modeling
- Applied multivariate statistics, applied regression analysis, business research methods, structural equation modeling, financial mathematics, probability

RESEARCH

PAPERS UNDER REVIEW

- Majumder, J., **Qin, K**., Faress, F., Qin, H., "The Socially Embedded AI Encounter Framework (SEAEF): Explaining Dual Value Formation in Meta AI", under review at *Industrial Management & Data Systems*.

- **Qin, K**., Guyo, I., Prybutok, V., & Qin, H., "Competence and Humanness in Parasocial Gratification: Algorithmic Social Cues and Relational Continuance with Generative Artificial Intelligence", under review at *Internet Research.*

WORKING PAPERS

- **Qin, K**., Garg, V., Heinrich, A., & Prybutok, V., "Decision Levers or Structural Correlations? A Within-Firm Diagnostic Applied to Employee Benefits and Workplace Injuries", target: *Production and Operations Management*. (Dissertation Paper 1)
- **Qin, K**., Garg, V., Bonnett, A., & Prybutok, V., "Observation or Sanction? How External Monitoring Changes Operational Safety", target: Production and Operations Management. (Dissertation Paper 2)
- **Qin, K**., Ho, T. K., Garg, V., Prybutok, V., & Niranjan, S., "When More Is Not Always Better: Information Richness in Last-Mile Tracking, Perceived Service Quality, and Customer Satisfaction", target: *Journal of Business Logistics*.

Research in Progress

- **Qin, K**., Verghese, A., Rubio-Herrero, J., "Should I or should I not? Resistance to Change in the wake of ethical violations during disruptions", behavioral experiment on managers' supplier decisions; experimental design and instrument complete.

CONFERENCE PRESENTATIONS & PROCEEDINGS

- Qin, K., Garg, V., Heinrich, A., & Prybutok, V., "Decision Levers or Structural Correlations? A Within-Firm Diagnostic Applied to Employee Benefits and Workplace Injuries." Doctoral Research Showcase Award, DSI Annual Conference, San Francisco, CA, Nov 21–23, 2026. (Accepted; **Finalist**)
- Qin, K., Ho, T. K., Garg, V., Niranjan, S., & Prybutok, V., "Balancing Richness and Fluency: The Cognitive Impact of Delivery Tracking Transparency on Service Quality." Presentation at the DSI Southwest Region (SWDSI) Annual Meeting, Dallas, TX, Mar 2026.
- Qin, K., Ho, T. K., Garg, V., Niranjan, S., & Prybutok, V., "Pharmaceutical Delivery Transparency: Patient Information Expectations in Prescription Shipment Communications." Presentation at the DSI Annual Conference, Orlando, FL, Nov 2025.
- Qin, K., Ho, T. K., Garg, V., Prybutok, V., & Niranjan, S., "From 'Out for Delivery' to 'Out of Patience': The Power of Transparency." Presentation at the DSI Annual Conference, Orlando, FL, Nov 2025.

TEACHING EXPERIENCE

University of North Texas

Semester	Course	Title	Role	Format
Fall 2026	DSCI 4700	Analytics for Decision Making (Capstone)	Instructor of Record (Teaching Fellow)	Face-to-face
Spring 2026	DSCI 4700	Analytics for Decision Making (Capstone)	Teaching Assistant	Face-to-face
Fall 2025	DSCI 3710	Business Statistics with Spreadsheets	Teaching Assistant	Face-to-face
Summer 2025	DSCI 5180	Introduction to the Business Decision Process	Teaching Assistant	Online
Spring 2025	DSCI 5250	Statistical Techniques in Simulation	Teaching Assistant	Face-to-face
Fall 2024	DSCI 5250	Statistical Techniques in Simulation	Teaching Assistant	Face-to-face

COURSE DESCRIPTIONS

- **DSCI 4700 (Analytics for Decision Making).** Senior capstone on the analytics underlying business decision-making and the information requirements of decisions; decision support tool selection, process improvement using Six Sigma methodology, and team-based process improvement projects with AI-supported analytics.

- **DSCI 3710 (Business Statistics with Spreadsheets).** Statistical inference for means and proportions, analysis of variance, correlation, and simple and multiple regression, taught through business cases and spreadsheet analysis (Excel).

- **DSCI 5180 (Introduction to the Business Decision Process).** Graduate introduction to statistical decision making with emphasis on model assumptions, selecting the correct statistical model, and interpreting results; hypothesis testing, simple and multiple regression (qualitative variable coding, model building), and experimental design.

- **DSCI 5250 (Statistical Techniques in Simulation).** Graduate course on the construction and use of discrete-event simulation models in business: pseudo-random number and process generators, distribution fitting and goodness-of-fit tests, queuing and service models, analysis of simulation output, and a research project (R, Excel/VBA, SAS Simulation Studio).

PROFESSIONAL SERVICE

- Ad hoc reviewer, Marketing Intelligence & Planning
- Ad hoc reviewer, SN Business & Economics
- Ad hoc reviewer, Decision Sciences Institute (DSI) Annual Conference
- Ad hoc reviewer, DSI Southwest Region (SWDSI) Annual Meeting
- Junior Lab Manager, Department of Information Technology & Decision Sciences, UNT, Fall 2025

HONORS AND AWARDS

- DSI Doctoral Research Showcase (Best Paper) Award Finalist, 57th Annual DSI Conference, 2026
- UNT Toulouse Graduate School Travel Grant, 2024–2025, 2025–2026
- UNT Tuition Benefit Program (TBP) Award, 2024–2026

GRADUATE COURSEWORK

Research Methods (Ph.D.): Applied Multivariate Statistics; Applied Regression Analysis; Econometrics; Business Research Methods; Experimental Design; Mathematical Statistics; Theory & Application of Nonparametric Statistics; Structural Equation Modeling

Actuarial Science (M.S.): Financial Mathematics; Probability

PROFESSIONAL AFFILIATIONS

- Decision Sciences Institute (DSI): Member, since 2024
- Decision Sciences Institute Southwest Region (SWDSI): Member, since 2025

PROFESSIONAL EXPERIENCE

Teaching Fellow, Department of Information Technology & Decision Sciences, University of North Texas, Fall 2026 – Present

Instructor of DSCI 4700, the undergraduate analytics capstone, under the mentorship of Dr. Victor Prybutok (course coordinator).

Teaching Assistant, Department of Information Technology & Decision Sciences, University of North Texas, Fall 2024 – Spring 2026

Graded assignments and exams, held office hours, and supported delivery of undergraduate and graduate DSCI courses every semester, concurrent with the research assistantship.

Research Assistant, Department of Information Technology & Decision Sciences, University of North Texas, Fall 2024 – Spring 2026

Designed from the ground up a behavioral experiment on firm managers' supplier decisions (study design, treatment conditions, instrument development) and conducted panel-data research linking federal regulatory filings to workplace safety records.

Graduate Research Assistant, Metropolitan College, Boston University, Spring 2020 – December 2022

Designed and modeled course sites on the Blackboard platform and supported faculty with Blackboard questions and technical problems.
